home disgusted not only with its losses but with the contemptible character of the racing. The steeplechase gave
forth even a fouter smell than that rank and unwholepome sort of performance usually gives, but Mr. Galway,
Mr. McDowell and Mr. Withers looked placidity on and
anw a norse that could have bestern the field in a canter

and did, not have a word to say to the jockey. All in all,
it is a great relief to every one who has the true interests
of the turf at heart that the scene will shift after this
week from Monmouth to "heepshead Bay.
Garrison thought Monn would win the first race;
Cycloga was withdrawn, and she led the betting, but collapsed completely in the homestretch and came
in a poor fourth. Buckstone was second choice,
but was even worse, sulking badly, never consenting to
try a bit, and coming home far in the rear. It was a
clean sweep for the bookmakers, and a rich crop they
gathered, for every cent of the heavy straight and place
bets on Mona and Buckstone went into their fat pockets.
Ovide showed high speed at Sheepshead Bay, but has run
race after race at saratoga in the most suspicious manner, heaten by common cows. Captain Coster was not

pounds up he should be sold for dogs' neat or for Clifton

KINGFISH AND FIRENZI BEATEN.

RAILROAD TRAVEL, CHANGE OF AIR AND WATER, AND SARATOGA MUD TOO MUCH FOR THEM. SARATOGA, Aug. 25.-Kingfish was beaten so shamefully by Los Angeles to day that he ought to retire for the season and give up the title of junior hamprion. Of course the Dwyers expected him to win the Equity Stakes. They sent him here for that purpose and they had a little money on him. Los Angeles is not within ten pounds of her best form, but to de-feat Kinglish was simply play for her. A coit cannot be expected to spend haif his time travelling between Monmouth Park and Saratoga and win stakes at both tracks.

Firenzi scemed to be completely upset by the change of alt and water. Eastern turfmen supposed that the Pocahontas Stakes would be little more than a walk-over for the filly that beat Hanover at even weights, but the Western contingent at the Springs could not be induced to desert Wary. The latter had the advantage of Firenzi in that she was accustomed of her life. Perhaps she has not yet recovered from the effects of the strain the them underwent.

Funer's premiur handling of corrigan's mare, Pearl Jennings, aroused the sispectons of the judges, and the boy was called upon to give an account of himsel, if a said he role to orders. Mr. Corrigan corroborated his statement, adding that he had backed the mare all over the country to win, and the judges let the matter drop. Their inaction was received with a volley of hisses.

It is natounding that Mr. Galway, Mr. McDowell and Mr. Wither, all men of stainless integrity, should sit calmly in the judges' stand and allow such riding as that of Mara on Referee in the steeplechase to pass without a word of inquiry or censure. The theory that it is not the duty of the judges to punish obvious fraud, unless some one makes formal charges, is idotic nonsense only fit for the prattle of bables in a cradie. If a Police Commissioner saw a pickpocket taking a purse, would it be his duty to wait un'il some one made formal charges before taking action! Every turfman knows what Referee can do if any effort is made to win with him, and the public had sufficient faith in Mr. Galway, Mr. McDowell and Nr. Withers to believe that if Referee's rider did not try to who he would be punished promptly. Mr. Danaher, Referee's owner, may have backed Referee and may have expected him to win. No charge of bad faith or fraud against the owner is mate, became nothing is known to this writer of his intentions or desires in the matter. But that Referee could have won that race, if any proper effort had been made to win with him, was as clear to every person on the course, who knew anything about horseflesh, as it was that his defeat resulted in big gains to the bookmakers. The honse was as fresh at the finish as at the start, and the policy of pulling him back to the rear until it was too late to get to the front should have insured to his rider prompt ruling off the course. With a few exceptions steeplechase riders are the vilest seum that polities a race-track—whiskey-sodden, blear-eyed, low-lived rufflans, who are eager to commit fraud whenever they can make anything by it. GIANTS WORTHY OF THEIR NAME. A CRUSHING DEFEAT FOR CHICAGO.

MAN-TRICKERY USED IN VAIN.

The New-York nine played a model game of baseball The New-York nine played a model game of baseban yesterday, and if the local players can continue to do the same kind of work there need be no fear of where the pennant of the League will rest at the clos of the season. Anticipating a great game when the New-York and Chicago clubs should meet, a large crowd went up to the Polo Grounds to witness the battle. The turn stiles after their two hours of turning registered 8,545 people as being their two hours of turning registered 8,545 people as being present. This represents a goodly sum of money, and the local players showed good sense in the increased efforts they made to please the assemblage.

FINE PLAYING BY NEW-YORK'S NEW THIRD BASE-

The Chicago players left and looked collish and spry after their four days of rest, and before the match was begun they were confident they would win. The New-York players gave their toilet especial attention, and when they appeared on the field they made a better appearance an on the previous day.
"You will see some ball playing to-day."

"You will see some ball playing to-day," remarked Acting Captain O'Rourke as he energed from the club house, and there was a look of determination on the faces of the other players that boded no good for their Chicag rivals. Each team was loudly applauded by the cager speciators when it appeared on the field. In the pre-timinary practice Dorgan's troublesome arm made itself felt and he was forced to retire. This necessitated considerable change in the arrangement of the nine. Tiernan was sent into right field, Gillespie into left. O'Rourke put on the catcher's gloves and Rainy, the new player, went over to third base.

The crowded grounds resounded with applause before

the real battle began. The Chicago players were re-markably lively in their practice work, their tight uniforms showing their well-seasoned muscles to advantage. Clarkson, who has been such a success against the New-York batters, was to pitch for Chicago, while the ever smiling "Mickie" Weich was to do the pitching for the New-York club. Each was determined, although neither

was over confident.

J. H. Brady umpired his first game, and although he J. H. Brady umpired his first game, and although he made one erroneous decision, which gave the visiting players their only run, he did good work in the main and, gave general satisfaction. The local players began to gauge Clarkson's pitching in the first inning, and they failed to make a hit in only two innings during the match. Clarkson was surprised and angry, but his show of tempor did not improve his pitching. Weich, who has been steadily improving in his pitching for several weeks, was everal to better condition and his work aroused the greatest never in better condition and his work aroused the greatest enthusissm among the onlockers. Keefe must look to his

laurels or Weich will win the honors from him.

Rainy, the young player signed by the local club on Saturday, made his debut and he jumped into public favor at once. He was nervous, as most young players are at first, but he soon recovered his composure and did especially good work at the bat, in base-running and in fielding. Connor's ample paws at first base saved the youngster one error, but his work otherwise was nearly perfect. He resembles Tieruzu both in appearance and in his playing, and if he was not overwhelmed with good

A few errors were made during the game, but the blunders were few compared to the really brilliant plays. Sunday made a running catch in the sixth inning, capturing the bail near the right field picket fence, which has sedom been equalled in this city. The Chicago men, when they saw that they were defeated, tried all the tricks for when their cital is famous, but without success. In the final inning one of the visiting players went so far as to steal the ball and hide it, hoping thereby to get a new bail and possibly change their luck. O'Rourke, however, discovered the subtrigge and the game was called while a hent was made for the ball. The onlowers cre-that the ball was in the Chicago players but ong, and Um-pire Brady and Weich empired the bals upon the ground and did not find the ball. Catcher Daly had been laugh-ing loudly as he lay stretched out on the grass, until trying to hatch out a "Hoodoo" by lying on the bail. The local players held the leaf throughout, and although they won easily, the excitement did not abute an instant until the last man had been put out in the final inning.

The Chicago men were put out without scoring and the seventh inning ended with the score at five to one in favor of New York.
